

Oklahoma Concrete Domes in Tornado Alley

The following info is about Oklahoma Concrete Domes in tornado alley. Due to their home site being located in tornado alley, the Marshalls' chose to build American Ingenuity domes because their steel reinforced concrete exterior resists F4 tornado winds. Bruce Marshall was owner builder of their two domes and did a fantastic job based on the finished photos below.

The 48' home dome on the left is linked to 40' garage dome on the right. The 48' dome has 2,649 sq.ft. (1,646 sq.ft. on first floor with 1,003 sq.ft on the second floor.) Link is 150 sq.ft. The 40' dome has 1,823 sq.ft. (1,151 sq.ft. on the first floor and 672 sq.ft. on the second floor). Dome home is five bedrooms and 2 1/2 baths. 664 sq.ft. recreation room above garage. Please see floor plan layouts below and two photo galleries of interior photos. Coming soon will be construction photo gallery of their domes. To view info about Ai dome and tornadoes, please click on [F4 Tornado](#).

48' dome on the left with 40' garage dome on the right. 48' dome has 2,649 sq.ft. (1,646 sq.ft. on first floor with 1,003 sq.ft. on the second floor.) Link is 150 sq.ft. 40' dome has 1,823 sq.ft. (1,151 sq.ft. on the first floor and 672 sq.ft. on the second floor). Dome home is five bedrooms and 2 1/2 baths. Please view floor plan layouts below.

Partial view of 289 sq.ft. family room off kitchen.

48' dome dramatic front entrance has three glass doors. The Marshall's chose a High Profile Entryway for their front entrance which allows for fixed glass above glass doors. These domes were owner built by Bruce Marshall. Congratulations Bruce you did a fantastic job!
